

# Pioneer 330

## Pioneer 330:

- A new generation aerobatic trainer
- High performances and low cost of ownership
- Reverse flight capability and Smoke system options
- New design gas suspension legs
- New High performance wing

## Applications:

- Aerobatic Trainer
- First Level Military Trainer
- Territory surveillance

## Engine: Rotax 912S - 100 hp

## Dimensions and Weights:

Wingspan	7,54 m
Length	6,30 m
Wing area	10,00 mq
Empty weight	285 kg
Useful load factor (at 550 kg)	+6/-4 g

## Performances:

Max cruise speed (Vh)	270 km/h
Cruise speed (Vc)	250 km/h
Climb rate	6 m/s
Take off - Landing distances	150 m
Range	1000 km

## Standard equipment:

- ROTAX 912S 100 HP engine
- Standard Blue upholstery
- Ergonomic seats
- Gas suspension retractible landing gear
- Variable pitch propeller
- Fiber instrument panel and tunnel
- Electric elevator trim
- Electric flap
- G/meter
- Speed meter - Vario
- Altimeter - Rpm Counter
- 2 Fuel level indicators
- Oil Temperature and pressure Indicators
- Voltmeter - Amperometer
- Hour counter
- Slip indicator - Compass
- 2 Fuel tanks 40 liters each

## Options:

- ROTAX 914 115 HP turbo charged engine
- Reverse flight kit
- Smoke system
- Electric rudder trim
- Fuel pressure indicator
- Airbox temperature indicator
- Blue canopy
- Oil level inspection door
- Cabin heat
- Strobe - Position - Navigation lights
- Landing light
- Propeller constant speed device
- Electric turn and bank indicator
- Attitude indicator - Gyrocompass
- GPS Digifly - Avmap - Garmin
- ICOM IC-A200 Radio with intercom - Headphones
- Protective cover
